SPROTMENS OF MEGHANISM. - At the Mechanies' Fair at Odd Fellows' Hall there are some exceedingly interesting specimens of the inventive and mechanical genius of our citizens. Among others we noticed a self-adjusting Switch for a railroad, made by Mr. Schorn of Murfreesboro, formerly of this city, which appeared to us to possess much merit. Mr. S has other specimens of his mechanical skill there which are in the highest degree credita-

Discovery of the Age. THIS remarkable preparation contains no alcoholic stimulent, no essential oil, nor one unhealthy drug. It does not color the hair, but acts upon the secretions and secretive organs, so as to supply the former with the necessary coloring matter, and upon the latter, so as to completely restore their impaired or lost functions. All this the propri etor has a right to say, for it has done all this for him. At the age of thirty-seven he was as gray as the man of sev-enty, and his hair nearly all fallen off, but he now has an sbundant crop, and no person would ever imagine that he ever had a gray hair; and his hair is as soft and pliable as though it had been recently oiled. This is not an isolated case; it has done the same for many others, as the following

Prof. O. J. Wood-Dear Sir: Unsolicited I send you this Prof. O. J. Wood—Dear Sir: Unsolicited I send you this certificate. After being nearly hald for a long time, and having tried all the hair restoratives extant, and having no faith in any, I was induced, on hearing of yours, to give it a trial. I placed myself in the hands of a barber and had my head rubbed with a good stiffbrush, and the Restorative then applied and well rubbed in till the scalp was all a glow. This I repeated every morning, and in three weeks the oung hair appeared, and grew rapidly from August last up to the present time, and is now black, thick and strong— soft and pleasant to the touch, whereas before it was harsh and wiry, what little there was of it, and that little was disappearing very rapidly. I still use your Restorative about twice a week, and shall soon have a good and perfect crop twice a week, and shall soon have a good and perfect crop of hair. Now I have read of these things—and who has not?—but have never hitherto seen any case in which any person's hair was really benefitted by the aid of the hair tonics, &c., of the day; and it really gives me pieasure to record the result of my experience. I have recommended your preparation to others, and it already hat a large and general sale throughout the Perritory. The people here saw its effects and have confidence in it. All who have used it here will coincide with me in what I have written. The supply you sent us as the wholesale agents of the Territory is already exhausted, and daily inquiries are made for it.—
You deserve credit for your discovery. I, for one, return you my thanks for the benefit it has done me, for I certainly ad despaired long, long ago of ever effecting any such re-ult. I congratulate you that your fortune (and a large one) is already made.

J. W. BOND. Yours, hastily, CARLYLE, Ill., June 27, 1853. I have used Prof. O. J. Wood's Hair restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative, it has resumed its original color, and I have no doubt

SIDNEY BREESE, Ex-Senator United States. Prof. Wood—Dear Sir: Having made trial of your Hair Re-torative, it gives me pleasure to say that its effect has Re-torative, it gives me pleasure detailed and a been excellent in removing inflammation, dandruff and a constant tendency to itching, with which I have been troubled from childhood, and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure and profit. Yours, traily,

Dear Sir: I am doing an extensive travel in the Western and Southwestern States, as General Agent for Adams' American Liniment, and would be giad if you would favor me with a consignment of Prof. Wood's Hair kestorative, as I feel assured that I can introduce it in many places where it is not known, as my own head is a living testimony of its valuable properties, in restoring bair to its natural color.—

I am forty years old, and my hair was almost white, but after using three haif-pint bottles, my hair is as beautiful suburn as it was at eighteen, and much improved in appearsame, and I would not be without a bottle on hand for the price of ten. I should be giad to attend, to any matter that is connected with the Hair Restorative. I have been for thirteen years engaged in the same business, and will be giad to hear from you soon. My address is Paris, Tenn.

THE extraordinary success of Miss Hariand's "Alone"—running through edition after chition, with great sapidity—republished in England with a still larger sale—translated into the French and German languages with marked success—is perhaps the best evidence of the originality and popularity of her writings. In the language of an eminent critic: "She may henceforth take rank among the most successful novelists of the United States."

"Those who have read 'Alone'—and those who have not, should—will be interested and gratified to know that a new book by Virgina's gifted authoress, entitled 'The Hidden Path,' is now ready. Beautifully as 'Marion Harland' has woven the threads of life in other romance and song—she is a poeters of rare felicity—we are safe in predicting that her new work will surpass all her previous offerts in fine delineation, brilliancy and power, and that Mr. Derby will be called upon to record it on his books as one of the most popular and successful of modern literary issues. Since reading 'Alone,' we shall impariently await the appearance of 'The Hidden Path.'"—N. Y. Reening Micros.
